## OBJECTIVE

Leverage years of experience designing and developing software at scale, enabling companies to offer customers a faster and more delightful experience when interfacing with their services.

## EDUCATION

### **B.S. in Computer Science / University of Texas at Austin**

Austin, TX (August 2005 - August 2010)

Graduated Summa Cum Laude

## EXPERIENCE

### **Pied Piper / Software Developer**

September 2017 - Present

- Developed and maintained CDN services responsible for handling ~5000 requests per second
- Updated several node APIs to support ~100 requests per second and cut down payload size from 500KB to 200KB
- Created internal tools to facilitate the manipulation and modification of data used by the data science/machine learning team

### **Tastee Sandwich Shoppe / Sandwich Artist**

September 2016 - June 2017

Created delicious food experiences while ensuring a safe kitchen environment and providing professional, attentive customer care.
